Unleashing the Power of
Electrical Transmission & Distribution

We Offer Combined Expertise & Specialist
Services Globally wherever needed.

A Private Limited Liability Company
Registered in Sri Lanka, with a difference.

Company Reg. No. PV 6771.
No. 87/2, Nature Paradise, Delrosa Mawatha, Off Wimalajothi Nahimi Road,
Ekala, Ja-Ela, Sri Lanka.

Who We are

- **We are a team of experts with distinction. Our Experience & Knowledge is of a Global Blend; Sri Lanka, United Kingdom, Norway, Germany, Switzerland, Netherland, Italy, State of Qatar, Japan, Korea, Thailand, Pakistan, and Malaysia.**
- **We believe in transparency in our dealings.**
- **Our Overheads are minimal. We team up based on the 'Project Size' and the 'Deliverables' needed.**
- **We identify the Customer Needs first, Organise and Mobilise at Short Notice the Expertise and Services required by the Client.**
- **Every Project we undertake receives a Unique Treatment as dictated by the needs. We go in to minute detail as well.**
- **We meet the Customer Deliverables not just from what we know of at that point in time but, also from what has changed since then. We are dynamic.**
- **We provide not only Performance Guarantees but, also Irrevocable Bank Guarantees in the Form of 'Bid Bonds' and 'Performance Bonds'.**

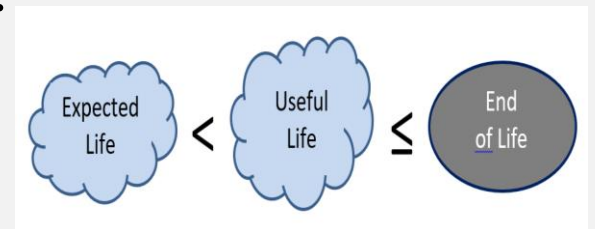

Our Motivation We do recognize that;

- **Power Transmission & Distribution is a branch of Engineering that came to being more than 100 Years ago and moving forward with innovations, new materials & technology not just of the present but, towards the long term future.**
- **Engineer must be a visionary to ensure the worthiness of the high capital investment of the Project and it's sustainability during the life time, spanning over several years that require; a) Operation, b) Maintenance, c) Repair, d) System expansion, e) Overhaul and upgrading.**
- **'Creativity & Imagination' can give the engineer the POWER to foresee the problems before it happens. Otherwise, the engineer will become a 'Problem Maker'.**
- **Those who are creative can produce better results.**
- **Imagination is more important than Knowledge*** * Albert Einstein
- **Creativity and imagination are not available for purchase over the counter. It has to be tailored and customised.**

OUR SOLUTIONS ARE EXCLUSIVELY CLIENT ORIENTED

- We do not market a particular brand.
- We Analyze the situation and provide tailor made solutions.
- We employ the best engineering practices.
- We interact with the Design and Manufacturing Teams of the Manufacturer to ensure that once the equipment are installed and Commissioned, they will perform as expected during it's 'Life Cycle'.
- We offer Solutions to extend the 'Useful Life' of; a) Switchgear, b) Power Transformers and c) Oil Filled Cables with heavy oil leaks.

How we determine the team to meet the Challenges, Clients Demands and to achieve their Goals

- A person who works within Rules, Standards and regulations.
- A person who has a formal scientific education & learning.
- A person who has gained experience as an employee in Public Sector or in Private Sector.
- A person who is able to produce an artifice or realize a dream come true economically & efficiently worthy of the investment & the capital cost.
- A person who is responsible for the 'engineering'.
- A person who can Operate and Maintain a device or a service.

We believe in Quality at our works and wherever we are!

- 
- Quality is a measure of excellence.
 - Quality is brought about by strict and consistent commitment to Standards and Requirements.

Quality is not a commodity available in the open market for purchase.

It shall be created

How do we perform from 'Start' to the 'End'.
